PROJECTS

TODO LIST APPLICATION Live

- Developed a responsive To-Do List web application using HTML, CSS, and JavaScript, enabling users to add, complete, and delete tasks efficiently.
- Implemented interactive UI features with dynamic DOM manipulation and smooth animations for an intuitive user experience.
- Utilized localStorage to persist task data across sessions, ensuring a seamless user workflow.

ADDITION GAME Live

- Developed a dynamic arithmetic game that generates random addition problems for users.
- Integrated real-time validation using JavaScript, allowing instant feedback on user input. Users receive immediate results upon submission.
- Added interactive buttons for user actions, including "Check" for answer validation and "Restart" to reset the game. These enhance usability.

MOVIE REVIEW PAGE Live

- Developed a dynamic Movie Review Web Page using HTML, CSS, and JavaScript to showcase reviews, ratings, and trailers of popular movies in an interactive layout.
- Implemented real-time search and filter functionality to allow users to easily browse and locate movies based on titles or genres.
- Ensured the page works well on both desktop and mobile devices with responsive design.
